

## How to make the world a better place

My best friend Andrew always laughs which in turn makes me laugh as well. How to make the world a better place is by laughing all the time. No sad faces because it makes everyone sad. My mother always says she likes it when I smile because it makes her happy and she gives me a kiss on my chubby cheeks. I don't like when I get sent to my room due to my angry behavior, but I do get a second chance once I behave myself.

I have two sisters that always like to fight with each other which make my house noisy and give my mother a headache. How to make the world a better place is by being peaceful and quiet. I will like everyone in the world to be peaceful and less noise.

I love being "caught good" because we get to eat with our teachers during lunch time and get a gift for good behavior. I will like for everyone in the world to get an award for being "caught good". This will make the world a better place to live.

I'm glad that I have discussed what makes this world a better place. I promise to continue to do my part on making this world a better place to live, even if it is just to keep my sweet mother smiling.
