I Should Listen To My Mom

Every day my mom reminds me to turn off the lights. Everywhere we are using a lot of energy every day it is a problem because someday we will run out. I know what to do I will build a better world by saving energy!

We use way to much energy.

When I grow up I will make more dams for water energy, make

more solar panels for sun energy and wind turbines for wind energy.

Right now I will turn off the lights, turn down the air conditioning when I leave and turn off the water when I brush my teeth.

Here is what you get for not wasting energy. We will have more diamonds because we are not using coal so much. If we don't use coal as much we will have more to use later.

I guess I will listen to my mom.

one can build a better world
now just by turning off the
